CVRD and QASCO sign long-term contract for the supply of pellets

Companhia Vale do Rio Doce (CVRD), the world's largest producer of iron ore and pellets, and Qatar Iron and Steel Company (QASCO), one of the major steelmakers in the Middle East, signed a six-year contract for the supply of up to 2.66 million tons of direct reduction iron ore pellets from 2005 to 2010. This new contract consolidates the long-term relationship between CVRD and QASCO.

Long-term contracts support CVRD's investment in the expansion of its production capacity and provide a steady flow of high quality raw material for the steel industry.
