

Vale in the Community: Vale Vermilion Water Treatment Plant

Drinking Water Quality Management System (QMS)

Vale's Vermilion Water Treatment Plant provides clean drinking water to over 10,000 residents in the communities of Copper Cliff, Lively, Naughton and Atikameksheng Anishnawbek First Nation.

Raw water is pumped from the Vermilion River to the Vale Vermilion Treatment Plant.

Drinking Water treatment chemicals and filtration techniques are used to clean the water to specification.

Policy

Vale is committed to providing safe drinking water to the City of Greater Sudbury Vermilion municipal drinking water distribution system, in accordance with all applicable legislative and regulatory requirements, as well as to the maintenance and continual improvement of a Quality Management System.

Vale is a Municipal Drinking Water Accredited Operating Authority under the Ministry of Environment, Conservation and Parks
